

# TSL 2020 INTERNATIONAL SCHOOLS' SUMMIT PARTNER POWER

**Could this be the last decade to improve global collaboration for a sustainable future?**

2020 was set to be an important year for the advancement of sustainable development internationally, with just ten years left to achieve the UN Sustainable Development Goals (SDG's). Many major global events, meetings and decisions were planned to help safeguard the world's biological diversity and climate, showcase sustainable cities, and improve educational systems. But sadly, these had to be postponed due to the COVID-19 crisis.

Young people, and the future generations they represent, have the most to lose by not reasserting such 'partner power'. The online 2020 Summit offers an exciting range of workshops and speakers, designed to help inform and empower students, teachers and schools on a shared journey to create a more sustainable world.

**This year's emphasis will be on building meaningful partnerships for the next ten years, linked to wider international decision-making processes and initiatives.**

**Linked to key international dialogue on Climate Change, Biodiversity, Sustainable Cities, ESD, and Reducing Inequalities**

**Global online forum for students aged 7 upwards**

**Developing children's capability, capacity and confidence, teachers' knowledge and skills, and school capacity**

**7-10 JULY - ALL ONLINE  
REGISTER NOW!**

**SPACES ARE LIMITED - 1<sup>ST</sup> COME, 1<sup>ST</sup> SERVED**

Workshops open to current and past participants of the TSL School Competitions, including parents.  
Plenary events open to all.

Cost from £10.
