

TSL 2022 INTERNATIONAL EDUCATION SUMMIT

PARTNER POWER: CLIMATE JUSTICE

How can we improve collaboration to address inequality and combat the climate crisis?

After world leaders met in November 2021 at the COP 26 Climate Summit to set out targets to reduce greenhouse gas emissions and cap global temperature rise to 1.5°C, we are inviting learners worldwide to consider how addressing inequality might play a role in combatting the climate crisis.

Young people, and the future generations they represent, have the most to lose from increasing global temperatures and are often one of the groups not equally represented when exploring the problems or solutions. The online 2022 Summit offers an exciting range of discussions & workshops, designed to help inform and empower students, teachers and schools on a shared journey to create a more sustainable world.

This year's emphasis will be on strengthening youth collaboration to reduce climate injustice, linked to wider international processes and initiatives

Linked to key international dialogue on Climate Justice

Global online forum for learners aged 7 upwards

Developing children's capability, capacity and confidence, teachers' knowledge and skills, and school capacity

11-16 JULY - ALL ONLINE
REGISTRATION OPEN NOW
